WOOD FLOORING

Oak White Stain

6 Great Reasons For Choosing Wood Flooring

1 It looks great

Wood has always been a natural choice in homes all around the world. Experience the beauty of natural wood flooring in your own home.

2 It's practical

Modern pre-finished wood flooring is easy to keep clean and looking great; advanced surface coatings provide superb wear, scratch and stain resistance.

3 It's comfortable

The warm feel of a genuine wood floor under your feet is superb and can create exactly the mood you require; calm or lively, stylish or refined.

4 It's healthy

Wood flooring greatly reduces dust mites that are a known cause of asthma; dirt, dust and pet hair are easily removed, maintaining a healthier living environment.

5 It lasts

The 3-layer engineered construction is strong and dimensionally stable; wood flooring can be re-sanded 4-5 times over its lifetime and is backed by a 10 year manufacturer's warranty.

6 It's an intelligent choice!

Wood flooring is an investment which adds real value to your home; it feels warm and looks great, it's practical and lasts a lifetime with minimal care.

Not Just Great Looking ... So Many Practical Benefits

Every wood floor is unique; minor flaws and variations in grain and colour enhance its natural beauty; it looks and feels warm; its look never dates and over time it becomes 'distressed', all of which add to its character and beauty.

Pre-finished wood flooring also has many practical benefits:

- **Easy to clean** - modern pre-finished wood flooring is easy to keep clean and looking great. Dirt, dust and pet hair are easily removed, maintaining a healthier living environment.
- **Stays looking great** - advanced surface coatings provide excellent wear, scratch and stain resistance. These are factory applied in dust-free conditions and baked on to provide a flawless finish.
- **Strong and durable** - the 3-layer, engineered construction is strong and dimensionally stable, preventing warping and twisting; the top wear-layer can be sanded 4-5 times over its lifetime and is backed by a 10 year manufacturer's warranty.

- **Quick and easy no mess installation** using either the direct stick or glue-less floating floor method. Being pre-finished, there is less mess, smells and delay compared to solid wood flooring which requires sanding and polishing after installation.
- **Environmentally friendly** - the manufacturing process helps to conserve forests by consuming less slow growing timber in the top solid hardwood wear-layer and uses sustainable species for the core and reinforcing layers.

The photos and colours in this brochure are indicative only. As wood is a natural product, shade variations are normal. Please check colour variation before installation.

Wood Flooring Warranty

The manufacturer warrants that this wood flooring will not require replacement due to normal wear and tear or structural defects for a period of ten (10) years from the date of installation when specified, installed and maintained in accordance with the manufacturer's recommendations, and subject to the following terms and conditions:

This warranty is only valid for the original purchaser in a domestic setting. It does not cover damage caused by:

- Poor installation, irregularities or movements in the sub-floor.
- Improper or infrequent cleaning, or improper cleaning agents or methods.
- Inadequate protection to prevent the ingress of dirt from external sources.
- Intense point loading pressure, such as stiletto heels, or unprotected furniture (use of plastic protectors is highly recommended).
- Abnormal use, or damage from dragging furniture, sharp objects, burns, or other such accidents.
- Indelible staining from tar, grease, dyes, waxes, inks, etc.
- Marks left by the use of rubber mats or rubber protectors.
- Exposure to excessive sunlight, temperature, moisture or humidity.

Being a natural product, there will be minor imperfections, and grain and colour variations in every wood floor which is considered to be a feature, not a defect. Timber will fade when directly exposed to harsh light and ultraviolet rays. Use drapes or other systems to protect the floor from excessive sunlight. A slight colour change immediately after installation is usual.

Any claims under this warranty must be made in writing within the guarantee period and be accompanied by proof of purchase and evidence of the fault. Any such claims will be paid on a pro-rata basis taking into account the number of years of satisfactory product performance.

The distributor's obligations under this warranty are limited to repairing, replacing or refunding any product which in their opinion are defective. The distributor shall not be liable for any installation costs, special, incidental, indirect or consequential loss or damage which may result from or relate to any claim.

Cleaning Recommendations

Damp mop the floor weekly or more often depending on the amount of dirt and foot traffic. A clean mop, warm water and a neutral pH detergent are all that is required; for best results use **Tarkett Bioclean**. Avoid using waxes and polishes which leave residues attracting more dirt. The use of doormats at all entrance points is highly recommended to reduce the amount of grit and abrasive particles from shoes. Mop up any spillages and treat stains immediately using an appropriate cleaning solution. Use **Tarkett Refresher** periodically to revive your floor.

Contact your WoodWorks stockist if you have any issues with floor maintenance.
