

Cleaning & Maintenance Instructions

Tover Hardwax Floors

Pulito Parquet - Cleaning

Cleaning is up to each individual and depends on the level of soiling. Our recommendation is that you only use the Tover Pulito Parquet when your floor is actually dirty and to spot clean as necessary (i.e. muddy paw prints from pets/food and drink spills).

- Before washing, remove dirt with a soft broom or vacuum cleaner with the brushes down.
- Shake the bottle of Pulito Parquet well.
- Pulito Parquet can be applied to your floor with a spray bottle and microfibre mop cleaning system, diluting 20 ml Pulito Parquet into the spray bottle with 1 litre of water.
- To wash your floor, dampen the microfibre mop head and wring the mop head out to make sure excess water is wrung out. Spray the floor directly with diluted Pulito Parquet/water mix, and mop in the direction of the boards. If necessary, on resistant dirt, apply directly pure Pulito Parquet on the area, let it react for a short time and carefully wipe with a clean sponge or a soft cotton cloth.

Lux : for periodical maintenance

The Lux product is like the wax coating on your car's paint, it helps to protect the oil and assist with stain resistance.

Lux should be used occasionally to revive the surface of your floor, with a dilution of 0.25:1 (250ml into 750ml water). You will get to know your floor and when a Lux application is required over time, and it may be that you end up only requiring a Lux application once every few months.

Please note: ALWAYS make sure you have swept or dusted your floor before carrying out a LUX application. If necessary, use the Pulito Parquet solution to clean the floor first if heavily soiled.

DO NOT under any circumstances use steam mops, soap detergents, Methylated spirits, kerosene or "oil soaps". They may damage the wood and the finish and leave a discolouring residue.

Cleaning & Maintenance Products Price List

Tover Hardwax Floors

The following products, available from our showroom, are recommended for use with your Tover Hardwax floor. Visit our website (www.jhf.co.nz) and place your order via our online store, email us or phone through your order and we can courier your order to you (delivery charge applies).

Floor Cleaning Products

Tover Pulito Parquet is the recommended product for Tover Hardwaxed floors.

Pulito is a neutral detergent based on coconut soap and hard waxes. It is particularly suitable for the frequent cleaning of lacquered, oiled and hardwaxed wood floors. In addition to its cleaning action, it revives and protects the wood thanks to its wax content, releasing a pleasant fresh scent in the room. Suitable for cleaning both domestic and commercial environments. Pulito Parquet does not require rinsing, dries quickly and is streak free; after a few minutes it can be walked on.

Pulito Parquet is generally used diluted : 20ml to 1 litre of water as a spot cleaner or in a “spray n wipe bottle”.

Pulito Parquet 1 Litre Concentrate Bottle	\$50.00
Lux 1 Litre Concentrate Bottle	\$50.00
Sabco Mop with Wet and Dry Covers	\$48.00
Replacement Wet Covers	\$20.00

Protective Floor Felts

We highly recommend **Protective Floor felt self-adhesive pads** to prevent your furniture damaging your timber floor. Protective pads are a heavy duty, dense, self-adhesive felt pad. Just peel off the backing and stick them to the bottom of your furniture. They come in a wide range of sizes that will suit anything you have in your home.

Felt pads should be placed on movable items (eg chairs), to prevent scratches and on non-movable items (eg tables and cabinets) to prevent dents. The felts will not compress with age and the self-adhesive layer bonds firmly so they offer quality, durable protection.

Protects floors and walls Superior quality Ultra-strength adhesive	Adds feeling of softness Makes furniture easier to move Highly durable
